PROFILE

Third-year Computer Science and Engineering student with a strong interest in **software development and full stack application development**. Have a foundation in programming, web technologies, and databases, with hands-on experience developing a web-based Student Result Management System. Interested in building practical applications, improving technical skills, and gaining industry experience through software development opportunities.

EDUCATION

Vignan's Foundation for Science, Technology and Research 2024 – 2028

B.Tech – Computer Science and Engineering | Third Year | CGPA: 7.5

BR Oxford Junior College 2024

Intermediate | 91.4%

Sri Siva Sai High School 2022

Class X | 89.33%

TECHNICAL SKILLS

Programming: C, Python, Java
Frontend: HTML, CSS, JavaScript
Backend: PHP
Database: MySQL
Tools: Git, GitHub, VS Code

PROJECT

Student Result Management System

HTML | CSS | JavaScript | PHP | MySQL

- Developed a web-based application for managing and displaying student academic results.
- Designed a simple interface that allows students to access their results easily.
- Used **PHP** for server-side processing and handling result requests.
- Used **MySQL** to store and manage student and academic result data.
- Connected the frontend, backend, and database to create a functional result management system.

CERTIFICATION

Deloitte – Data Analyst Certification

Completed a Deloitte data analytics certification program and gained exposure to analytical concepts and data-driven problem solving.

ACTIVITIES

Kho Kho Player

Currently participating in college Kho Kho activities; developed teamwork, coordination, discipline, and sportsmanship through regular participation.

Fine Arts Club Volunteer

Volunteered with the college Fine Arts Club during the first year and assisted in organizing college cultural events and supporting club activities.

CORE STRENGTHS

Problem Solving • Teamwork • Communication • Adaptability • Quick Learning • Time Management
